DETAILED ACTION

Allowable Subject Matter

Claims 1-21 and 23-25 are allowed.

The following is an examiner's statement of reasons for allowance: A method and apparatus of verifying a bearing gap between a shaft and a shaft seat of a hydrodynamic bearing whereby a measuring fluid is caused to flow through the bearing gap by attaching a hood of a feeding device to one end of the test bearing and then introducing measuring fluid into the bearing gap such that the feeding device seals the bearing gap, in combination with all other limitations of the independent claims is not disclosed nor deemed obvious in view of the prior art of record. The prior art specifically does not disclose the hood feature of the feeding device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
